## Creative Workshops - suitable for Festivals, Schools, Bookshops or Libraries.

### **Mixed-Up Mythology!**

*My Family and Other Romans* provides a unique spin on classic Roman mythology. Inspired by the unique characters in this timeslip adventure, you'll work with the author, Marie Basting, to create your own unique Roman god or mythical creature. You'll then draw them on a Roman scroll and tell us some key facts about them in the form of a *Wanted* poster. (Can be adapted to include a writing activity.)

### **Roaming around Rome – Create Your Own Timeslip Adventure**

With an emphasis on descriptive writing, children will be invited to travel back to ancient Rome to create their own time slip adventure. Through fun exercises, Marie will fire imaginations and equip children with the tools to ensure their stories have all the ingredients of a classic fantasy adventure. (Schools will receive additional plotting and editing resources.)

### **Mythical Mosaic Workshop**

Join author Marie Basting in a fun creative session where you'll create your own Roman style mosaic. We'll start with a short reading from Marie's hilarious timeslip adventure, *My*

*Family and Other Romans*, talk a little about how Roman's decorated their homes and then create our own mosaics.

(Involves scissors and glue so younger children may need parental supervision. An option to use a printed template and colouring pencils is available.)
